What we did?

EBSB program launched by Hon’ble Prime Minister seeks to promote bonding between people of diverse cultures across different regions of the country. Learning each other’s Food Culture is an important part of building this bond. With this reference, Indian Institute of Information Technology, Nagpur has organized Food Exchange Program with the paired institute IIITDM Kurnool to create an environment which promotes learning between States by sharing best practices and experiences. We’re living in a vibrant multicultural country, so it’s great thing to understand cultures other than our own. There are a few ways to do this, but the most important is to remember that we’re all just people who are trying to do the best we can. Developing our understanding of other cultures, Indian Institute of Information Technology, Nagpur has organized this program with paired institute IIITDM Kurnool on 25th September 2022. Food Exchange Program was consisting of 10 presentations with time limit 10-12 minutes which was presented by students of both sides. Total 143 participants attended the session and a good amount of audience was live on YouTube during the session. In this event, we have received a good number of participations from IIIT Nagpur as well as from IIITDM Kurnool.

I, Arpit Yadav (Student Coordinator, EBSB IIITN) and my team has successfully organised the event in the online platform (WebEx) under the guidance of our respected Faculty Coordinators, Dr. Kirti S. Dorshetwar and Dr. Kaushlendra Sharma, in association with Indian Institute of Information Technology, Kottayam, under the EBSB Programme initiated by our Prime Minister. The theme for this month is ‘Food Exchange’. In this a number of participants participate from both institutes and give presentation on their Traditional Food

items. We first created a Good Form and float it in our college to know who was interested in the program. Then we send all the details (including Restrictions and Guidelines) via mail to them. And invite them in the session with their presentation. Audience on the both side seemed to be very eager to know and explore the food items of the other side. The program ended with great knowledge and pleasure.
