IEEE TECHITHON 2018

IEEE TECHITHON 2018 is the annual inter-collegiate Technical Festival of Atharva College Of Engineering held during October 03 to 05, 2018. The theme for this year was “Essentia” (EONIAN ELEMENTS). This theme revolves around the idea of Renewable Energy, Sustainable Development and all branches pertaining to it.

The IEEE team aims to increase awareness amongst the students regarding planet Earth and its issues by creating solutions to real world problems that will affect our planet in the years to come. EXTC department won interdepartmental competition in IEEE Techithon 2018.
