Management education is all about learning through experiential and practical methods. Case Study is one of the ways in which aspiring students of professional management courses across the globe practice their analytical, problem solving, creative thinking, decision making and other important managerial skills.

Case studies are the laboratories of management students where they can simulate the real life scenario and sharpen their skills. Prestige Institute of Management and Research, Indore has been conducting the National level Case Study Competition since past eighteen years with very enthusiastic response from students across B-Schools across India.

13 teams across B schools participated.
