GHRIET, Pune students visited IIT Gandhinagar

The GHRIET encourages students to visit reputed Institutes. The collaboration explores the new opportunities of study. Recently, Department of Civil Engineering department of GHRIET, Pune arranged Study visit of BE Civil project group to IIT Gandhinagar, Gujarat for “Study of Confined Masonry Techniques and its Design aspect”. Two BE Civil students namely Shekhar Dabe and Ashwajeet Gedam accompanied by Prof. A.R. Bagade visited IIT Gandhinagar on 23rd & 24th January 2020.

In the visit, the group visited and studied real construction of confined Masonry structure of IIT Campus which is first of this nature in India. The unique technique of Confined Masonry is the construction system where the walls are built first, and the columns and beams are poured in afterwards to enclose the wall. The walls are tied down to the foundation. They also visited Civil Engineering Department and studied the best practices followed by them. The group interacted with Dr. Gaurav Shrivastav, Dean- Campus Development and other Departmental faculties. Dr. S.K Jain, Director IIT Gandhinagar helped a lot for organisation of the visit.

Prof S.V.Joshi, Prof. S.G.Ban, HOD Civil Engineering Department & Prof. S.V.Joshi have taken initiative for organisation of the visit.
