

# Action Report

Date: 04 APR 2020

Respected Sir,

Following Actions have been completed on 04 APR 2020.

1) Activity: Online Lecture on Topic "Applets" for SE-7 E&TC Students

An online Lecture has been conducted on <https://whiteboard.myperfectice.com/b/zak-46a-wm9> platform.

The image displays two screenshots. The top screenshot shows the 'OOP Class' whiteboard interface. It features a title 'OOP Class', '6 Sessions | 0 Room Recordings', and an 'Invite Participants' section with a URL input field containing 'https://whiteboard.myperfectice.com/b/zak-46a-wm9', a 'Copy' button, and a 'Start' button. Below this, there are three room cards: 'Home Room' (no sessions yet), 'OOP Class' (last session on April 20, 2020), and a 'Create a Room' button.

The bottom screenshot shows a code editor window with Java code for an applet. The code is as follows:

```
package first;
//displaying string on window
import java.applet.Applet;

public class one extends Applet
{
    public void paint(Graphics g)
    {
        g.drawString("Hello, World!", 10, 50);
        System.out.println("Applet just painted.");
    }
}
```

The console output at the bottom of the editor shows 'Applet just painted.'.

Sincerely,

**Mohammed Zakee Ahmed**

**Assistant Professor,**

**Department of Electronics and Telecommunication Engineering,**

**Pune Institute of Computer Technology Pune**
