Report

In view of lockdown condition, due to COVID 19, students are unable to report to college, so under work from home and learn from home model created Google classroom.

Use of this virtual class room with internet based tool is one of the effective way to reach to every student.

With this model students perform following activities.
1. Students should read and understand the learning material(Videos, PPTs etc) provided by teacher via Google Classroom.
2. Raise query, if any.
3. Solve the given assignments
4. Upload the assignment solutions to cloud for assessment

Learning Outcomes:
1. Adopt learning with various online tools and techniques
