FORMAL FUNCTION SCRIPT – SPECTRUM 2019-20

We will shortly begin with the annual day inaugural function; I request the audience and volunteers to take their seats and to make sure to keep your mobile phones on silent mode.

I now request Dr. Sandip Zine, Programme Coordinator, to escort our principal ma'am, Dr. Mrs. Supriya Shidhaye and all dignitaries to the dais.

Thank You sir.

On behalf of VES College of pharmacy, I Mr. Haabil Hirvani wish you a very good evening and extend a warm welcome to everyone present here with us, to celebrate our annual festival SPECTRUM 2020.

Spectrum, this word might contain just 8 letters, but it means so much more for the entire VESCOP family, as we have grown 13 years since our inception. Vivekanand college of Pharmacy was started in the year 2007 with Boolani sir's vision and his objective - to provide quality education and develop a research aptitude so that students will excel in their chosen fields of academic interest. At the beginning of this long and luminous journey, **our college was but a three storied building**, nurtured by our Principal ma'am Dr. Mrs. Supriya. Shidhaye and the staff which worked tirelessly and dedicatedly to make it one of the most distinguished colleges in Mumbai. Today, I can say with pride and I am sure you all will join in and agree that we are shaping this college in tune with our mission. Vivekanand College of pharmacy is one of the highest ranked colleges in Mumbai today; it is renowned not only because of its academic progress but also because it's of extra-curricular achievements which its students have regularly demonstrated in various inter-college events.

VESCOP is ranked 67th among Pharmacy institutes across the nation at NIRF 2019, has received NBA Accreditation for B. Pharm up to 2022 as per the OBE System & has received platinum ranking in AICTE CII Survey for Best Industry Linked Institution 2019.

As it is well said that "Education is not preparation for life, education is life itself."

We at VESCOP stand by it. Though our college has grown with age of over 10 years and prospered, we at VESCOP strive day in and day out to put in a little personal touch and establish a relationship with all our students which go much beyond the normal academic curriculum.

It gives me immense pleasure to welcome the distinguished dignitaries we have with us present here today. We have our Chief Guest: Dr. Anuradha Majumdar, Dean, Science & Technology, Mumbai University; our Guest of Honor: Dr. Hitesh Doshi, Vice President, Sulphur Mills, Research & Development, Shri B. L. Boolani, President & Founder Trustee, Dr. Prakash Lulla, Member Trustee, Dr. Pranav Kabra, Dr. Amit Shobavat, Mr. Vinay Pathak, Respected Principal Madam Dr. (Mrs.) Supriya Shidhaye, Parents, Teachers and my fellow students.

Before the commencement of any auspicious occasion, we have a tradition of invoking the blessings of the Goddess of Knowledge. I request all the dignitaries on dais and our lovely audience to remain seated and observe silence, as I request **Ms. Shreya Ajithkumar** to render the **Saraswati Vandana** and spread across the positive vibrations with her blissful voice.

After completing his PhD, he worked at companies like Sun Pharma, Franco-Indian Pharma, IVAX and Indeus Life Sciences. From IVAX he moved on to join the Nordic Group to set up their base in India. After just a year of joining the Nordic Group, the company decided to invest in setting up Indeus Life Sciences, an R&D laboratory and a manufacturing plant in India. When he joined the Nordic Group, he was designated as Director R&D and was then elevated to the position of Managing Director in 2011. His achievements at Indeus include setting up a lab from scratch, building a great R&D team and he was happy to develop some of the most employee-friendly HR policies, which helped a great deal in motivating the team. He also did his MBA during his tenure at Indeus and he stood first in his batch. After having worked with the Nordic Group for 12 years, he decided to do learn and do something different. He left the pharmaceutical field to move on to the Agrochemical industry as VP - R&D of Sulphur Mills. The Agrochemical industry is not as well developed and matured as the pharmaceutical

industry. Thus, there was a tremendous scope of doing some ground - breaking work in this field. The amount of formulation scope and the flexibility in formulation design, meeting new people from diverse technical backgrounds motivated him to take this decision. He has about 12 patents to his credit. He strongly believes in giving more than what is expected out of him to the industry and he likes to take on new responsibilities and risks. He was associated with the Controlled Release Society Indian Chapter for almost 20 years from being a student member to Vice President and he worked diligently for the cause of disseminating the knowledge of Controlled Release Technology.

I request Dr. Doshi to share his pearls of wisdom with our students.
