Cooking festival

By EBSB club

On 16/ 02/2020, a colorful and memorable cooking Fest was organized in our college. This event was a whole day long and was held in the dining court of our campus. In this event, many teams representing different regions took part.

The event commenced with the arrival of various teams. After collecting the required ingredients from the kitchen area, all groups grabbed their spot and started preparing their dishes. A few hours later, it was opened for everyone to come and taste the dishes. There were around 400 people with about 100 participants and 300 visitors and still more to come. Then the chief guest Dr. Neelima Satyam arrived and was presented with a bouquet. She was accompanied by general secretary student gymkhana. There was also a counter where everyone was required to give their rating to the food they were tasting from the buffet. The photography club of our college covered the whole event. It was a truly mesmerizing show as all the teams participated with their full most potential. The everyone present there praised the entire event a lot. Its main objective was to showcase the cultural diversity and ethnic inclusiveness of the country, and it seemed to be fulfilled seeing huge participation from another side. Finally, the event was concluded with a group photo of participants and the organizing team.

We enjoyed a lot and dispersed with a sincere hope that such events should be organized time and again giving all a chance to display their talents.
