About Our College

Muthurangam Government Arts College (Aut.) was established in the year 1965 under the headship of renowned patriot and philanthropist Mr. R. Jeevarathnam. Our College gained autonomous status in the year 2005 and in the year 2015 it has been reaccredited by NAAC with CGPA of 2.75 on four point scale at B grade. In the year 2016, our college has celebrated Golden Jubilee year. Presently, the College offers 12 UG, 11 PG, 8 M.Phil and 9 Ph.D courses catering nearly 4000 students.

Department of Physics was started in the academic year 1978-79. The success of the department can be enunciated by the commencement of Post Graduation division in the year 2005. The M.Phil and Ph.D Programs in Physics are introduced in the year 2010 and 2013 respectively. At present, we have about 350 students are studying in UG, PG, M.Phil, and Ph.D. courses.

Physics Department of this College has facilities to enable the M.Sc., M.Phil and Ph.D. students to do their projects in the college itself. The laboratory has enough facilities to endure projects and research in the fields like Semiconductor Physics, Nanomaterials, Magnetism, Crystal Growth, Ultrasonics, Advanced Electronics which includes Microprocessors & Microcontrollers etc. Many of our students are pursuing their higher studies and working in different National and International Universities across the world and contributing to the different recent research fields of Physics.

Significance of the Seminar

Faculty members, Research Scholars and rural students of different colleges in and around Vellore, will be benefited by this “2nd International conference on Materials Science”, which will concentrate on hot topics of research in Materials Science like Crystal Growth, Nanoscience and Technology. The aforementioned research topics will be useful to the rural participants to plan their higher education.

This conference will pave the path to rural students in and around Vellore district in order to promote their knowledge in emerging trends in Physics especially in Materials Science. In addition, participants could acquire an opportunity to interact with subject experts and share their ideas in different sessions of the conference.
