RECREATIONAL CELEBRATIONS

“A sound body has a sound mind”. This practice can be found in St. Martin’s Engineering College. In addition to academic college, it also gives extreme importance to physical activities such as games, sports, Yoga and gymnasium for their physical strength. During the last academic year, St. Martin’s Engineering College conducted various events like Fresher’s Day, Annual Day, Traditional Day, Sports events etc. to encourage students to have student-friendly education practice. As part of annual day, the institute organized Technical events to make the students realize their inherent talents. Many dignitaries were present in these events. They spoke about the importance of extracurricular activities in student life. Students were also actively participated in these activities.
