takes the opportunity to welcome you all and take you through an enlightening journey of Incredible India.

India is one of the oldest civilizations of the world with a pragmatic variety of myriad cultures, the historical, political aspects of which will be dwelt upon by our Keynote Speaker Prof. Shri Prakash Singh.

The ragas and talas make Indian Music unique. Our Guest of Honour Prof. Rajev Verma will take us on a musical ride, explaining the history of Indian Music, followed by a customary recital.

The varied topography of India gives a distinct geographical identity. Our Guest Speaker Dr. Binda Punay Pandey will cover the unique highlights of Indian Geography.

The tribes of India constitute 83% of the total population. Our Guest Speaker Dr. Rahul Patel will talk about our ethnic minorities, and their indigenous ways of healing.

The Himalayas are the lifeline of the Indian Subcontinent in many ways. Through his discourse on local communities in higher altitude wetlands, our Guest Speaker Dr. Sanjeev Sharma will take us on the mountainous journey to cover aspects of the rich Himalayan Culture.

India has been a historical medical tourism destination, visited by a constant stream of health travelers seeking to heal themselves through Ayurveda and modern medicine too. Our Guest Speaker Dr. Vibha Pathak, an Occupational Therapist from California will elaborate on Medical Tourism in India.

Tourism promotes national integration and has great importance in the economic and cultural development of India. Our Indian journey will come to its destination by gaining a technical perspective through our Guest Speaker Dr. Vandita Srivastava on how Remote Sensing & Geospatial Technologies can help the Tourism Sector.
