Engineering Projects in Community Services (EPICS) Orientation Workshop:

EPICS Orientation Workshop was a knowledge exchange workshop conducted by Professor William Oakes, Director EPICS, Purdue University on 30th and 31st October 2019 at CMRCET to faculty participants. 10 multidisciplinary IEEE-EPICS projects were mentored by Professor William Oakes and the students received necessary suggestions for the designed community based prototypes.

The Program is a service-learning program centered at Purdue University and supported by a Learn and Serve Higher Education grant. Students from freshmen though seniors work in multi-disciplinary teams to solve engineering-based real world community problems in partnership with community service and education groups. Last year, the program involved 249 students from different departments of engineering majors.
