Program Name: "Tree Plantation"

Date: 20th February 2020

Numbers of participants: 50

Number of resource Person: 06

A tree plantation drive was observed at our institute on 20th February, 2020. The main aim of this drive was to spread and create awareness to protect the environment from degrading. The students and teachers selected the empty places near the campus girl's hostel to plant saplings in a well-organised way. The saplings were supplied by Mrs. Twinkle Panchal and few students also brought. In order to restore the eco-balance of the forestation drive was taken with all seriousness. All the participants were highly enthusiastic to make it a big success. The program further followed by students from each class planting saplings in the campus. In the group of five students, each group bought one sapling. The students planted saplings, and fenced them and watered the plants. Every step of the programme was appreciated by the representatives of the administration.

Students had planted various types of plants some of them being Jacuranda (niligul mohar), Queen's flower, Queen's Crups, Indian laburnum, Copper pod (tamrashircbi), Mountain Ebony, Purpleorchid tree (kachanar), African Tulip tree, scarlet, fountain Tree (Pichakari), Rain tree and jurul tree. Faculties had also explained about the trees and the importance of tree plantation. At the end of programme there was a photo session with EBSB convener and teachers and students. The event was a success as each student contributed profoundly for this day. Further, the event was ended by taking an oath to prevent the environment from pollution by contributing little in our daily life.
