5.	Closing remarks	11.45-11.50 AM

CYBER SAFETY VIDEOS

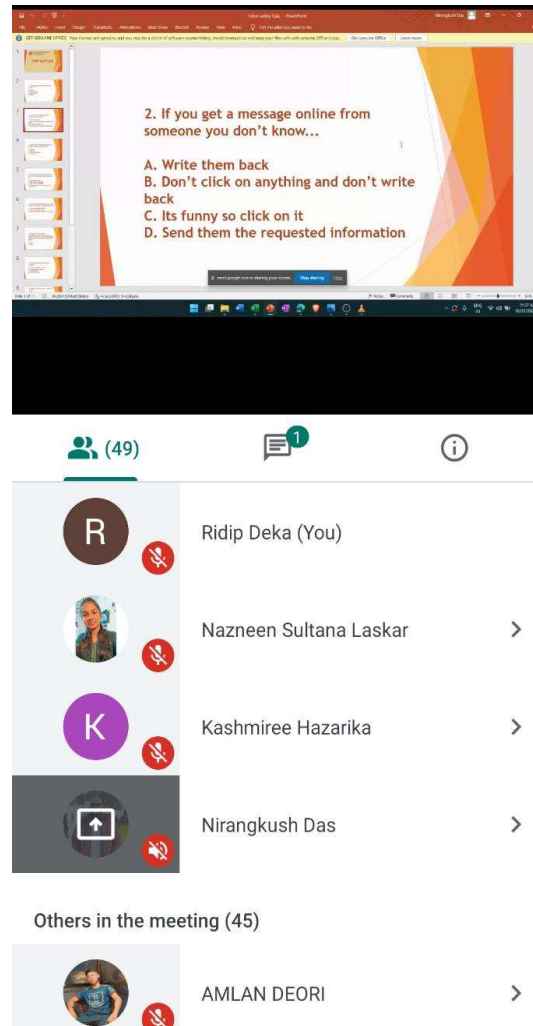

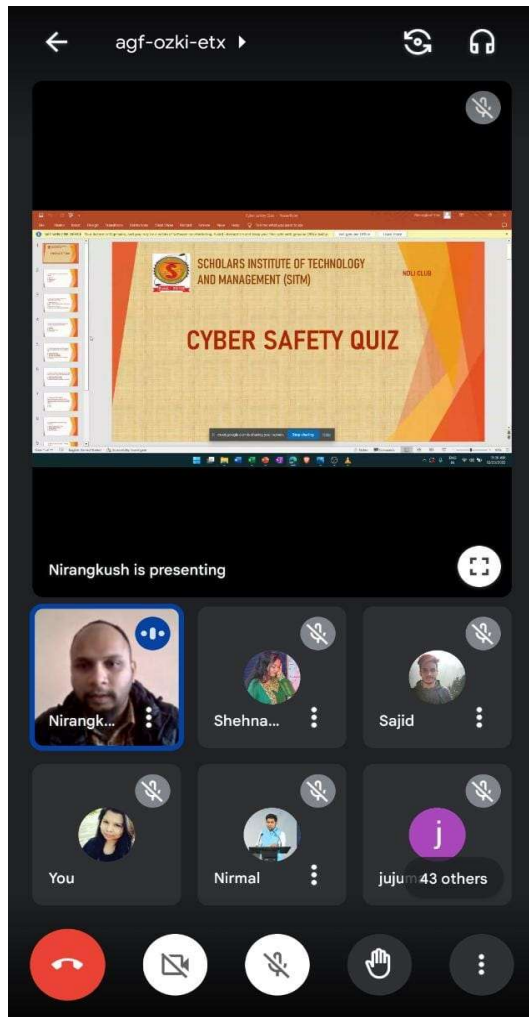

Important safety tips highlighted in the videos:

1. Always keeping the laptops and phones with latest operating system.
2. Regularly checking privacy settings to ensure personal details are safe.
3. Not to share sensitive personal information over the internet.
4. Reminder that information once posted stays in the internet forever.
5. Not to use untrusted wifi connections.
6. Ensuring websites start with https and are secure.
7. Not to open or indulge in emails coming from unknown sources.
8. Not to click suspicious links and auto pop ups.
9. Scanning things with anti virus before taking in the computer.
10. Avoiding suspicious mobile applications and games as they might have malwares.
11. Avoiding bad or risky content like dark and deep web.

ONE EARTH • ONE FAMILY • ONE FUTURE

After the videos were shown, students and faculties faced the cyber awareness test via a fun quiz of around 12 questions. Most of the answers would come from carefully watching the videos and some would require some careful thinking. The quiz was hosted by Mr. Nirangkush Das and received enthusiastic participation from students and faculties. After each question, small discussions happened to increase the awareness about cyber safety.

CONCLUSION

All the students and faculties present during the online meeting participated wholeheartedly for this event. The event started at 11 AM and ended around 11.50 AM. This is the first of 12 events that would happen every month till November 2023. Each month will have something different from the previous month e.g. Outside speakers, experts, student activities, live demo etc. The event happened under the guidance of Mr. Sudip Lodh, Chairman and Mrs. Jhumur Lodh, Director, SITM. Also, very thankful to all the faculties and non-teaching staff who helped. Cheers to true cyber safety.
