Report on online program

The information about Corona pandemic was sent to students through what's app group on 01/05/2020. The students are advised to follow the world health organization rules (WHO) as well as Indian govt. rules during lockdown period (Maintaining social distance, wearing mask and sanitizer if going out). The students also advised to know the spreading of decease in Punjab state as our institute is paired with that state college.

The two videos were sent and asked to share it to their friends and relatives. The students advised to do online free training on the following

1. Standard precautions: Hand hygiene
2. COVID-19: How to put on and remove personal protective equipment (PPE)

All students are advised to download the **AROGYA SETU APP** as Prime minister urged the people and employees to use this app which gives information about virus spreading and precautions.

3. The institute has distributed food and butter milk in local area during the lock down period to cater the needs of poor people as social responsibility and humanity. In this regard, We are heart fully appreciating the management for encouraging the services done during the crisis time. We are thankful to Chairman, Vice chairman and General Manager Dr.P.Subba Raju who encouraged us in doing the social service. The photos and sample whats app screen shot are kept in under mentioned below.

4. Finally we are planning to conduct online program with the paired state college.
