

Ek Bharat Shreshtha Bharat

Report

Guntur,
15th February, 2020.

Awareness Programme on Importance of Trees in Kallam Haranadhareddy Institute of Technology

- ❖ The students and Faculty have created an awareness among the people regarding the uses of growing trees in the surroundings.
- ❖ In connection with the Ek Bharat Shreshtha Bharat, the programme was organised on behalf of the Central ministry of Human resources & Communications.
- ❖ Trees were planted in the college premises by students and faculty.
- ❖ Students distributed plants to the people in the surrounding villages of the college.

- ❖ Awareness Programme on Importance of Trees was organized in Kallam Haranadhareddy Institute of Technology. The Central ministry of Human resources & Communications have jointly cooperated to organize this programme as part of Ek Bharat Shreshtha Bharat. The Zonal members of Krishna and Guntur districts of the Central Ministry of Communication have supervised the programme. The director of KHIT Sri Uma Sankar Reddy, Principal Sri. BSB. Reddy, Faculty and students have participated in this programme. People are facing many problems due to deforestation and increase of pollution. Though many steps are taken by both central and state governments, they could not be succeeded without the cooperation of the people. So this programme was organized to create special awareness and involve people not only in Tree plantation programme but also in many such Government welfare programmes.

- ❖ As part of the programme, trees were planted in the college premises. Later, a rally was organized in Chowdavaram village and explained them the Importance of growing Trees. Trees were planted by the college students even in the Mandal Parishad school, Chowdavaram village.

- ❖ People expressed their joy at such programmes organized by the central government. Many elders of the village were of the opinion that such colleges have to take initiative and take up such programmes so that Greenery could be a part of revolution in Swachh Bharat.
