

Session on Prevention from COVID-19

A session on Prevention of COVID-19 was organized at Sadhu Vaswani Institute of Management Studies for Girls on 12th March 2020 for its students and staff. Director Dr. B. H. Nanwani discussed all the guidelines given by Government of India for preventing COVID-19. She also explained how the simple habit of washing hands frequently can prevent the infection.

She took up FAQs about COVID-19 and explained in detail the risk of coming in contact with COVID-19 positive patients and how Social Distancing would help in staying safe.

Her talk also included safety tips for those using public transport, such as washing hands frequently, covering the face while sneezing etc. Students and staff found the session very informative and promised to follow all the guidelines to stay safe.
