Awareness about "AROGYA SETU APP"

Date: 15.04.2020

During these tough times due to COVID-19 in our country Government of India have urged the people of India to use AROGYA SETU APP which provides every bit of details about COVID-19 like what is COVID-19, how it spreads and what are the precautions to be taken to stay away from the disease etc. Students of our college are made to download this APP in their smartphones and made to go through in detail. And also they are asked to share the APP information through social media and their friends. About 200 students have downloaded and started using the APP.
