Report on Tree Plantation

Date:16/07/2019

A Tree plantation activity was observed at our college campus dated 16/07/2019 as a part of "Ek Bharat Shrestha Bharat" and on the occasion of "Gurupournima", a tribute to the Guru of everyone. On this day the students of Bachelor of Engineering, planted trees in the campus. The main aim of this drive is to spread awareness to protect the environment. The plantation drive is carried out by planting Neem and Champa. Students along with faculty planted saplings of 60 Neem and 40 Champa. The Neem has various benefits for health and Champa has fragrance. The management encouraged the students to plant at least one plant every year throughout the life.
