Webinar Series – GSET

GTU-GSET has organized webinar on Webinar on “**Relevance of Ancient Indian Technology in Modern Era**” On **21.5.2020** by **Dr. Debi Prasad Mishra**. Webinar got huge success. Dr. Mishra had covered concept of Indian traditional monuments and sculptures. He had explained importance of mother earth in life of Indian. Also he had explained role of pure environment for leaving beings. Moreover he had insisted importance of natural farming and its utility. Overall really it was excellent talk towards of traditional and ancient India exposure. Participants had taken maximum advantage of that and asked many questions regarding farming, human values, covering Indian traditions in the curriculum.

All the GSET school faculties and students were connected through the webex and all other registered participants were connected via facebook link provided by email. In the webinar comments students had given their gratitude to GTU-GSET for arranging this type of valuable webinar as well they had asked for ppts also. GSET committee has sent PPT to all the registered participants. All the participants were given link of quaternaries to be filled up up to 24.5.2020. Participants who will give 50 % correct answers are given certificates via e medium.

Over all feedbacks of webinar are excellent. It’s a great success of GTU-GSET.

Statistics of the webinar are as under: People reached 24.3 K, Video views 10 K and Engagements 5.6 K (As per attached webex data)
