

Alumni Cell

Amphitheater Built by the Efforts of Alumni of Civil Engineering Department

At the evening of 14th March 2020, batch of 1986-90 of the Faculty of Technology & Engineering gifted an Amphitheatre to their alma-mater. The program was graced by the presence of Shri Jay Narayan Vyas ji. He also graced the earlier reunions in 2019 of Civil Engineering Department. The amphitheatre was inaugurated in the gracious presence of Honorable Chancellor Rajmata Smt. Shubhangini Devi Raje Gaejwad, Honorable Vice Chancellor Prof. Parimal Vyas, Minister of State, Shri Jay Naryan Vyasji, Registrar- Dr. K.M. Chudasama, Dean, Faculty of Technology and Engineering Prof. Arun Pratap, Syndicate member Dr. Jigar Inamdar and many senate and syndicate members. The fund for the amphitheater was collected by the joint efforts of the 1990 pass out batch. Under the able

guidance of Prof. Parimal Vyas sir and by the untiring efforts of Dr. Jigar Inamdar and Dr. Sanskriti Majmudar, Director, office of Alumni Affairs a magnificent amphitheater was built. The empty space of the faculty where this well-equipped and designed amphitheater is made will be a blessing for the present and upcoming students. It's a pleasant gift by the past students of the faculty to the current and future students. There cannot be a more thoughtful gift then this. Shri Jay Narayan Vyasji quoted that, this is place where we spent a lot many afternoons picking stones and pebbles while studying and it will help create new memories for students. Due to government directives people could not come in very big number for the event but many alumni and members of university were part of the historical event.
