

JAIPUR ENGINEERING COLLEGE
AND RESEARCH CENTRE

EVENT: Workshop on 3D Printer

DATE: 12 Sept, 2019 to 15 Oct, 2019

VENUE: C 501, C Block and 3D printing Lab

Jaipur Engineering College & Research Centre (JECRC), Department of Mechanical Engineering has organized Training 3D Printer by CADD Centre, Jaipur for second Year Mechanical Engineering students. The expert Mr. Rajeev Bhargava was welcomed in our college with a floral bouquet. In starting he described about his the basics of 3D Printer.

Objective: -

The main objective behind this Training was to explain and Learn the new technology. He included

1. Introduction Additive manufacturing
2. Introduction to 3D Printer
3. Fabrication using 3D printer

His experience was very valuable and motivating in every way. After this there was a question hour session, curious students asked some questions. After his interactive session the vote of thanks by HOD Mechanical Dr. M.P Singh was given.

Outcomes:-

- i) Students get to know about Scope of 3D Printer.
- ii) Students learn Fabrication of 3D printer
- iii) Students learn the working of 3D printer
