

JAIPUR ENGINEERING COLLEGE
AND RESEARCH CENTRE

EVENT: Guest lecture

DATE: 27 Sept 2019

VENUE:JECRC COLLEGE

Advancements in Designing

This Expert lecture was organized by Mechanical Deptt for the students of V & III Sem keeping in mind the latest Design & Development taking place to make our students up to date.

Advantages: students effectively prepare for your next job interview by brushing up their CAD skills. By learning hands-on practical skills, they will not feel embarrassed or overwhelmed when they are asked to demonstrate their skills during an interview.

1. Students will know how to simulate and validate the performance of products of all manufacturing sectors including automotive.
2. Students will know how to simulate every structural aspect, including linear static analysis, of a single part of a complex assembly with hundreds of components interacting through contacts or relative motions.
3. Students will get NSDC+ All Parental companies + CADD CENTER certified certificate

Scope : Aerospace, Automobile, Construction, Oil& gas, Mold, Tool, Manufacturing, Simulation, R&D, Process and plant

Companies hire: FEV, Pinnecal, GR Infra, Aquatronics, CaDD Centre, NBC, Gulati Autoelectrical

Other JBM, EXA Motors, E-Vega mobility, Bluebieries and many more
