

Name of organizing unit : Department of IT ,Panimalar Institute of Technology

Co-organizing unit : AICL training

Venue : Online Event

Date of Event : 14/05/20 to 20/05/20

Whether funds received from IEEE exclusively for this event : No

Topic : Machine learning and Deep Learning using python

Speaker details : Mrs.Ramkisharani,Data Scientist,AICL

Faculty coordinator :Dr.R.Josphineleela,Prof/IT

Target audience : Open to all college staff

Attendance : 34

Brief description

Department of Information technology associated with AICL organized an online FDP for the seven days on the topic of Machine and Deep Learning using python programming for the all college staff . Mrs.Ramkisharani, Data Scientist, AICL has delivered the topic in machine learning algorithm and deep learning algorithms with real time examples using python programming from 14/05/20 to 20/05/20 with huge number of participants . Some practical domain applicability was discussed with appropriate supervised learning paradigm. This session was very useful to the various state faculty members to understand the impactful application of machine learning in daily life. The outline of this seminar will include: Data analysis and Data. The participants were interactively with resource person throughout the FDP and gave good feedback about all session
