

DEPARTMENT OF ELECTRONICS AND COMMUNICATION SCIENCE

DEPARTMENT ACTIVITIES 2019-20:

Before lockdown:

We have organized workshop for the students of our department on the topic "IoT system in Industry Automation", In addition to this our students were given hands on training in the same area. Our department has conducted Faculty Development Workshop of our own dept. staff to upgrade skill in troubleshooting of domestic electrical appliances towards the skill based paper in the revised syllabus. We have conducted workshop for advanced learners comprising of **SIX SCIENCE DEAPRTMENTS** (5 students from each) for imparting skills in electrical power system and solar power in domestic applications. We have organized **INTERNATIONAL SEMINAR** on the topic "**Green Technology and IoT**" for the academic year 2019-20 in which 120 participants from faculties -Research scholars took part and made it as a grand one. Proud to say that one of the participant was from Oman country. We have conducted awareness program in terms of community service on "**Electrical safety and First aid**".

After lockdown:

We have organized two webinars for the faculties/ Research scholar of various colleges in which 105 participants were from different parts of the country using ZOOM platform.

Topic 1: **WASTE TO WEALTH**

Topic 2: **IMPROVE THE FACILITATING SKILLS- BEST PRACTICES**
