Covid-19 is a disease caused by a new strain of Corona virus. 'CO' stands for Corona, 'Vi' for virus and 'D' for disease. The Covid-19 virus is a new virus linked to the same family of viruses as Severe Respiratory Syndrome (SARS) and some type of common cold. The general symptoms of Covid-19 are fever, cough and breathing trouble. The virus is transmitted through direct contact with respiratory droplets of an infected person generated through coughing and sneezing. Individuals can also be infected by touching the surface contaminated with virus and subsequently touching mouth, nose and eyes. As this is a new virus, we need to learn more about how it affects people and how to live with Covid-19.

The NKT College Parent Teacher Association organized a National Level Webinar on Learn to Live with Covid-19 on 22nd May, 2020 at 11.00am. Dr. S. Chamundeswari, Principal of NKT College and the director of the webinar welcomed the Resource Expert, Dr. V. Keerthi, M.B.B.S., M.D., Consultant Clinical Microbiologist.

Points stressed by the resource person in this eye opening programme are

1. Personal Hygiene and use of masks
2. Overcoming fear
3. Become more knowledgeable about the disease
4. Keeping in touch with family members and friends
5. Maintain social distance

The session was well attended by 185 participants from all over India. Doubts raised by the participants were well clarified by the resource person Dr. V. Keerthi at the end of the session.

The programme was co-ordinated by Dr. V.J. Uma, Assistant Professor of Physical-Science Education and Dr. T. Sahaya Saila Assistant Professor of Tamil-Education and hosted by Mrs. A. Enid Ruth, Assistant Professor of Education.

The vote of thanks was proposed by Dr. V.J. Uma along with Mrs. R. Juliet Ramesh, President, NKT College Parent Teachers Association.

At the end of the programme valuable feedback was collected through participants E-mail ID and E-certificates were provided to participants.
