ACTION REPORT

Name of the Event / Activity	**AarogyaSetu App**
Activities Start Date	22/04/2020
No. of Resource persons	7
Report Description	The purpose of this app is to spread awareness of COVID-19 and to connect essential COVID-19 - related health services to the people of India. This app augments the initiatives of the Department of Health to contain COVID-19 and shares best practices and advisories. It is a tracking app which uses the smartphone's GPS and Bluetooth features to track the coronavirus infection. The app is available for Android and iOS mobile operating systems. With Bluetooth, it tries to determine the risk if one has been near within six feet of a COVID-19 - infected person, by scanning through a database of known cases across India. Using location information, it determines whether the location one is in belongs to one of the infected areas based on the data available. This app is an updated version of an earlier app called**Corona Kavach** (now discontinued) which was released earlier by the Government of India.
Activities End Date	05/05/2020
No. of Participants	271

<u>REREPORT OF THE EVENT IN 50 WORDS</u>

The Department of Computer Science has conducted many literacy programmes(Quiz and Assignments via Google Classroom , Canvas Tools and Whatsapp) to the students to enrich their knowledge and to tune their minds in various aspects. In the future our department has a plan to conduct various events for the benefit of the students. During the lockdown period our Department has conducted many online quizzes and webinars to other faculty members, college and School Students. The above schedule represents the report and Action plan activities. Totally our Department has created a Technology oriented platform for future purpose.
