Event date: 28.07.2019

Venue: S.I.V.E.T.College

Resource Persons : Department Staff & Students

Students Participated: 140 Chemistry students

Faculty coordinators: Staff Members (Chemistry Department)

Every year, on 28 July, the world celebrates World Nature Conservation Day. It aims at increasing awareness of the natural resources that the Earth is bestowed with and the need to ensure their long term protection. Ensuring a healthy, productive and sustainable environment is at the base of ensuring stable societies and the guarantee for the well-being of present and future generations. In this connection we planted trees in various places in our campus to ensure a healthy environment in our college.
