Report on

World Ozone Day Program, 2019-2020

Theme : World Ozone Day

Event date: 16.09.2019

Venue: S.I.V.E.T.College

Resource Persons : Dr. A. Chithra, Head & Associate Professor ,Department of Physics, SIVET.College

Students Participated : 50 Chemistry students

Faculty coordinators: Staff Members(Chemistry Department)

The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet. The phase out of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems by limiting the harmful ultraviolet radiation from reaching the earth. In order to create an awareness among students we celebrated ozone day by making posters , slokans and collage on 16th September 2019
