A Report on “A One-day workshop for Students on Mind Power Techniques” 27.09.2019

IQAC of the college conducted a one-day workshop for the students on “Mind Power Techniques” on 27.09.2019 at the college premises. Mr. S. Anguraj M.E., (Ph.D), Assistant Professor, Department of Information Technology, KSR Engineering College, Tiruchengode, Namakkal Dt, was the chief guest of the event..Mr. S. Anguraj spoke how to develop and concentrate thoughts so that they become much more powerful. At this point, he pointed out that thoughts have power in themselves. Our deeply held beliefs, fears, hopes, worries, attitudes, desires, and each and every thought, all have an effect on oneself, others, and our environment. Every thought we think impresses itself upon this system, and its effect is indisputable. The students were highly motivated to face reality with all good thoughts in mind. The programme was conducted for final year students of our college
