Title : National Webinar on “ICT as a Pedagogy Tool for Renewable Energy”

Participants : 120

Resource Person :

- Dr. C. S. Ramya
Assistant Professor
- Dr. K. Sownthari
Assistant Professor
- Ms. N. Mahalakshmi
Assistant Professor
- Ms. R. Vincent Femilaa
Assistant Professor

Date : 15 May 2020

Brief Note :

The resource persons spoke on the online tools that can be used for teaching sustainable energy courses. They also used these tools while presenting sessions on the need and state of solar energy for India. The path to taken for using solar as energy source was discussed. A smart way to handle the huge waste management was discussed and ways of using waste and managing waste was demonstrated. The use of Biogas was explained and its production both at home and in the industry was explained . The feedback was excellent and there were many take aways for the participants
