

AWARENESS PROGRAMME ON 'LEPROSY' FOR STUDENTS

A Leprosy Awareness Programme was conducted by a team consisting of Dr.G.Sridevi M.B.B.S., - Deputy Director of Medical Services (Leprosy)i/c, Mr.Y.Isaac Arulkumar - District Health Educator and Mr. .M.Manoharan - Non -Medical Supervisor on 12th February 2019. All the students participated in the programme. The program was led by a female doctor who pointed out the symptoms and causes of leprosy. A powerpoint presentation was presented in which the cure for this condition was mentioned and how the doctors are striving hard to eradicate this condition completely in the following years to come. There was an interactive session during which the students cleared all their doubts regarding the skin condition that has been prevailing for years. The team gave us hope that this condition will be eradicated soon in our country. The program ended after the future teachers took an oath to protect each and every child.
