PG & RESEARCH DEPARTMENT OF BIOCHEMISTRY

NEUBERG CREW

Event: Environmental studies - EXPO

Venue: II B.Sc. Biochemistry class room, D.G Vaishnav college.

Date: 12th February 2020

Day: Wednesday

Organizers: students - II B.Sc. Biochemistry & faculty- Prof.K. Nagalakshmi, Dept. of Biochemistry.

No. of student participants: 49 + students from other life science departments.

Report:

The second year students under the guidance of professor K. Nagalakshmi from PG and Research Dept. of Biochemistry organized the, "EVS- Expo", in connection with the introduced EVS curriculum, on 12th February 2020 at the II B.Sc. Biochemistry classroom, D.G Vaishnav College, Arumbakkam. The expo started around 09:30 a.m.

Students showcased static and working models which can be used for learning various EVS concepts - including organic farming, practical solutions to air pollution, global warming, virtual water, water purification, water pollution, nuclear energy, agriculture, population dynamics. The dean and principal of the college were invited ; accompanied by the head of the department, Dr. P.T Srinivasan. Other faculties were also invited. They were extremely happy with the efforts the students and faculty took in bringing out the expo well. The principal congratulated the students and addressed them regarding how important 'sustainable development' was. Students from all the life sciences department took rounds and visited the counters and put forth their doubts and queries.

The objective was not only to inculcate an environment-friendly attitude and research-mindedness, but also creating awareness. The students were extremely satisfied with such an event being organized. Thanks to EVS co-ordinators, Dr.Muralidharan,Plant biotechnology dept. & Dr. Sundari, commerce department, who came forward with their valuable motivation and presence. Special thanks to Prof. K.Nagalakshmi ma'am for inspiring the students and for her constant support and motivation.

The expo was highly informative and was admired.

Outcomes of the event:

- Deeper understanding of environmental studies.
- Information, knowledge and learning about environmental problems.

- Thoughts about reinforcing specific eco-friendly practices or behaviors to change habits that contribute to poor environment.
