Then the session was taken over by the resource person. He pointed out that it is good to utilize the chance of learning a new language which recreates the personality. Learning through audio and video materials has become today's trend and they for sure will enhance and speed up the learning process. He also mentioned various resources that are available online. He had listed 25 e-tools that are of easy access for the students. "Understanding what you learn and what you need to learn" will enable the learners to learn a language at their own pace and there will be productive results. He had suggested websites and also apps specifically designed for each of the four skills (Listening, Speaking, Reading and Writing - LSRW). While concluding he pointed out the bonding that a student gets while facing a teacher, which these tools may fail to bring. Vote of Thanks was delivered by Ms. Revathy, Assistant Professor, Department of English, Holy Cross College. Feedback link was shared and responses have been recorded.
