# Dr.AMBEDKAR GOVERNMENT ARTS COLLEGE, VYASARPADI, CHENNAI-600 039. PG AND RESEARCH DEPARTMENT OF MATHEMATICS

EVENT NAME: WEBINAR ON ENHANCEMENT OF MATHEMATICAL EDUCATION USING

**SAGEMATH** 

Event location: Zoom meeting.

Number of Resource Persons: Two.

Date: 17.06.2020 (one day) Time: 10.00 am to 12.30 Pm.

Number of participants: 115 from various Colleges Students, faculties in Chennai and from various

cities in India.

The PG and Research Department of Mathematics organized the webinar on Enhancement of mathematical education using SAGE MATH. In this webinar we have two resource persons.

Dr.S.DHANSEKAR., M.Sc., M.Phil.,Ph.D., Assistant professor of Mathematics,VIT Chennai Campus. He has two decades of teaching experiences in Arts &Science college and Engineering College. He published more than 35 articles in reputed journals and delivered more than 10 invited talks in the workshops and conferences.

Dr.V.PARTHBAN M.Sc.,Ph.D., Assistant professor of Mathematics, VIT Chennai Campus. He has 10 years of teaching experience in Engineering College. He published more than 10 articles in reputed journals. He also delivered more than 20 invited talks in the workshop and the conferences and excelled in all programming languages, mathematical tools such as Maple, Matlab, R, Mathematica, scilab and so on.

SAGEMATH is an open source mathematical software system based on the python language. SAGE( System for Algebra and Geometry Experimentation) is freely available and is supported by all modern operating system. Sage provides the most recent algorithms and tools for many domains of mathematics. Sage provides a wonderful scientific and graphical calculator. It is efficiently supports Under graduate, post graduate and research students in their computations in analysis, Linear Algebra, Calculus etc. If you can visualize it, then it will help us to understand more about it. To visualize the concepts we need softwares. SAGEMATH software helps to enhance the mathematical teaching. In this workshop Dr.S.Dhanasekar taught about plotting of curves and surfaces. That will help us to understand the nature of the surfaces and curves. Also he explained the ways of input matrices and manipulate it. We know that matrices are basis for linear algebra and Linear Algebra techniques are used in Data Analytics. Dr.V.Parthiban talked about basic of multivariable calculus (Partial Differentiation, Multiple integral). This will help us to understand multivariable calculus easily. He also showed different methods of solving differential equations. Overall this workshop is designed to have a basic understanding of SAGEMATH software and ways to enhance the teaching skills of teachers in mathematics education. The participants felt that the workshop was nice and informative. From their feed back it is noted that the workshop served the purposes.
