Report on Inter College Photography Competition

Conducted by Department of Geography

Name of the Event: Inter-College photography Competition

Theme: Culture and Heritage

Date of Event: 20-08-2020

Total No. of Participants: 52

A picture is worth more than a thousand words; it is a means of personal expression and the appreciation of it, all at the same time. A photograph has the ability to capture feelings, ideas, experiences, moments in time, and immortalize them forever. And as it can convey these expressions faster, and occasionally more effectively than words, it has become one of the primary modes of communication in the digital world.

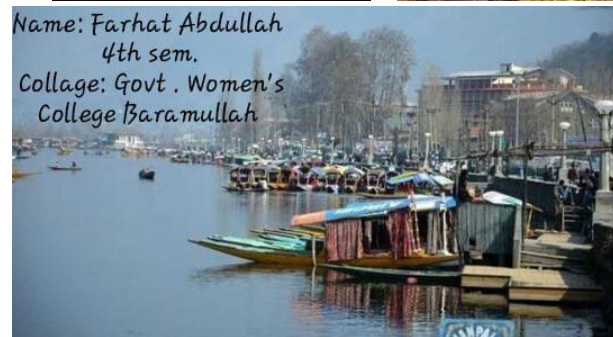

World Photography day is an annual worldwide celebration of the science, history, art and craft of photography. August 19 marks the day when the people who share a passion for photography come together to raise awareness and share ideas about the field of photography. This unofficial holiday is a celebration of the creativity and nuances of photography that have captivated people for decades. With various advancements in technology, we have seen many different methods of photography over the years, but the essence remains the same.

In view of the current scenario, prevailing due to Covid-19 Pandemic, the Department of Geography organised an Inter college photography competition in order to keep students engaged. Each year, in celebration of this art form, many promotional photography competitions are announced with various themes to choose from. The theme of the event was "Culture and Heritage". It helped students to develop basic photographic skills and provided a sense of unity and better understanding of previous generations. Almost 52 students from various colleges of valley had participated in the event. All the participants had tried their best to capture the best snapshots of their culture and heritage.

The top entries of the competition are as;
