"UNDERSTANDING RIVERINE AND DESERT ECOLOGY PERTAINING TO ASSAM AND RAJASTHAN"

"The earth is what we all have in common."
 The Brahmaputra River starts high up in the Himalayas. From there, it winds through snow-capped mountains and narrow canyons. The massive Thar Desert in northern India is mostly sand and stone. Huge, rolling sand dunes stretch for hundreds of miles.

"Let's nurture nature so that we can have a better future."
 With better endeavours and understanding of the riverine and thar ecology of assam and Rajasthan, we can see a proliferate benefits and a better harmony.

Thank you!
