The objective of the Event

The objective of the event was to discuss and enhance the knowledge of the students about books, culture, history, travel and other things about Rajasthan. Another objective was to educate the newly inducted students about Rajasthan State and its history, culture etc. In this event, the students shared their experiences of being in Rajasthan, the places visited and also about the stories around the state.

"Rajasthan Ki Baat"

"Rajasthan ki Baat" was a general discussion event that was conducted on 19th April 2022 at 5:30 PM in classroom C1. It was of utmost importance as the event was conducted under EBSB. There was active participation from many students. We discussed food, history, travel, social, local games, events like Pushkar Mela, skills like Meena Karigiri, dance forms like Kalbeliya, and several books.

The students were animated while expressing their share of fond memories and narrating events that led them to know more about the vibrant state. There were few students who were from Rajasthan. They did a detailed presentation about their state and removed some myths like 'waterless region', 'people are only rulers', 'locals are unkindly' etc. Their discussion added a much better perspective about the state and its people.
