"Water :the Elixir of Life" World Water Day Drawing and Poster Design Competition

World Water Day, celebrated on 22 March every year since 1993, draws the world's attention to the importance of freshwater and the sustainable management of freshwater resources.

Water is our most precious resource, but extreme weather events are making it scarcer, more unpredictable and more polluted. We must ensure that we use this important resource responsibly and balance all of society's water needs.

Share your work as Photographs, Poster Design or Drawings to participate in the campaign
 Deadline: 23/3/2021 4:00pm

The name, username and photo associated with your Google account will be recorded when you upload files and submit this form.
