today the Central University of Haryana(CUH) and the University of Hyderabad jointly organized an online webinar on indigenous sports of their respective states. I, on the behalf of CUH, Presented a PowerPoint presentation of Haryanvi indigenous sports and listened carefully to the local games of Telangana state. I got to know about a lot of similar things. I realized that there are many similar things between the local sports of Telangana and ours. there is just a communication gap. so I requested to the Indian govt there should be more inter-university programs on inter-state cultural, social, and educational affairs. state universities should also be encouraged to participate in these types of events.
